SUPPLEMENTARY INFORMATION: This Notice announces the receipt of a request from Zeneca Ag Products to cancel its registration of VAPAM-B Foaming Fumigant.

I. Background

Pursuant to section 6(b) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), the Administrator may seek cancellation of a product if a pesticide or its labeling or other material required to be submitted for registration does not comply with the provisions of this act. The Agency issued a letter to Zeneca Ag Products (Zeneca) on March 15, 1995, notifying the registrant that a Confidential Statement of Formula (CSF) was not on file with the Agency for VAPAM-B Foaming Fumigant, a product that contains metam-sodium. The letter indicated that an up-to-date CSF or a request for voluntary cancellation must be received by the Agency within 30 days of receipt of the March 15, 1995 letter.

II. Request for Voluntary Cancellation

On March 28, 1995, Zeneca Ag Products submitted a letter to EPA requesting voluntary cancellation of the registration for VAPAM-B Foaming Fumigant (EPA registration number 10182-185), pursuant to FIFRA section

6(f)(1). Zeneca indicated in the letter that the subject product has not been manufactured or distributed in many years, therefore, Zeneca requests voluntary cancellation of the registration for VAPAM-B Foaming Fumigant. EPA intends to approve the proposed voluntary cancellation unless Zeneca withdraws or amends its request before the end of the comment period.

III. Procedures for Withdrawal of Request

If Zeneca chooses to withdraw its request for cancellation, it must submit such withdrawal in writing to Wilhelmina Livingston, Special Review Branch, Special Review and Reregistration Division (7508W), Environmental Protection Agency, 401 M St., S.W., Washington, DC 20460, postmarked on or before October 6, 1995. This written withdrawal of the request for cancellation must include a current CSF for the product, and a commitment to pay any reregistration or registration maintenance fees due, as well as to fulfill any applicable unsatisfied data requirements.

IV. Provisions for Existing Stocks

Under the authority of FIFRA section 6(a)(1), EPA will establish certain limitations on the distribution and use of existing stocks of VAPAM-B Foaming Fumigant subject to any final cancellation notice. EPA defines the term "existing stock" to mean any quantity of VAPAM-B Foaming Fumigant in the United States on the effective date of the cancellation of a registration granted by the Agency. Such existing stocks include VAPAM-B Foaming Fumigant that have been formulated, packaged, and labeled and are being held for shipment or release or have been shipped or released into commerce.

Consistent with the Agency's established policy for determinations concerning existing stocks (56 FR 29362), the Agency will permit Zeneca to sell and distribute existing stocks of this product for up to 1 year after the effective date of this cancellation. Any sale or distribution of the product by Zeneca after that 1 year period will be a violation of federal law. Any existing stocks remaining in the possession of all other persons after 1 year may continue to be sold, distributed, and used until such existing stocks are exhausted.

V. Comments

Persons interested in commenting on the proposed cancellation are invited to submit their written comments on or before October 6, 1995 to the address given above.

VI. Public Docket

A record has been established for this notice under docket number "[OPP-64028]" (including comments and data submitted electronically as described below). SUPPLEMENTARY INFORMATION: Section 5(h)(1) of TSCA authorizes EPA to exempt persons from premanufacture notification (PMN) requirements and permit them to manufacture or import new chemical substances for test marketing purposes if the Agency finds that the manufacture, processing, distribution in commerce, use, and disposal of the substances for test marketing purposes will not present an unreasonable risk of injury to human health or the environment. EPA may impose restrictions on test marketing activities and may modify or revoke a test marketing exemption upon receipt of new information which casts significant doubt on its finding that the test marketing activity will not present an unreasonable risk of injury.

EPA hereby approves TME-95-10. EPA has determined that test marketing of the new chemical substance described below, under the conditions set out in the TME application, and

within the time period and restrictions specified below, will not present an unreasonable risk of injury to human health or the environment. Production volume, use, and the number of customers must not exceed that specified in the application. All other conditions and restrictions described in the application and in this notice must be met.

Advance notice of receipt of the application was not published. Therefore, an opportunity to submit comments is being offered at this time. EPA may modify or revoke the test marketing exemption if comments are received which cast significant doubt on its finding that the test marketing activities will not present an unreasonable risk of injury.

The following additional restrictions apply to TME-95-10. A bill of lading accompanying each shipment must state that the use of the substance is restricted to that approved in the TME. In addition, the applicant shall maintain the following records until five years after the date they are created, and shall make them available for inspection or copying in accordance with section 11 of TSCA:

1. Records of the quantity of the TME substance produced and the date of manufacture.
2. Records of dates of the shipments to each customer and the quantities supplied in each shipment.
3. Copies of the bill of lading that accompanies each shipment of the TME substance.
